API Chemical Raw Materials Cabergoline Raw Powder CAS 81409-90-7

Our Product Introduction

for more products please visit us on bodybuild-supplement.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 1gram
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

Product Specification

- Product Name: Cabergoline
- Appearance: White Powder
- Assay: 99%
- Cas Number: 81409-90-7
- Highlight: API Chemical Raw Materials,
Cabergoline Chemical Raw Materials,
81409-90-7

Product Description

API High Quality Cabergoline Raw Powder 81409-90-7 For Supply

Our

Specifications

Application

Cabergoline, with CAS number 81409-90-7, is a medication that belongs to a class of drugs called dopamine agonists. It is primarily used for medical purposes and has specific indications and usage. Here are some common uses of cabergoline:

- 1. Hyperprolactinemia:** Cabergoline is primarily prescribed for the treatment of hyperprolactinemia, a condition characterized by elevated levels of the hormone prolactin in the blood. It works by reducing the production and release of prolactin from the pituitary gland. Hyperprolactinemia can result in various symptoms such as irregular menstrual periods, infertility, galactorrhea (abnormal milk production). Cabergoline helps normalize prolactin levels and alleviate associated symptoms.
- 2. Parkinson's Disease:** Cabergoline is also utilized as an adjunctive treatment in Parkinson's disease. It acts as a dopamine receptor agonist, stimulating dopamine receptors in the brain to help alleviate symptoms such as tremors, stiffness, and movement difficulties associated with Parkinson's disease. However, it is important to note that cabergoline is not a first-line treatment for Parkinson's disease, and its usage is generally reserved for specific cases.

It's important to emphasize that cabergoline is a prescription medication, and its usage should always be under the supervision and guidance of a healthcare professional. The dosage, duration of treatment, and potential side effects of cabergoline can vary depending on the specific condition being treated and individual patient factors. It is important to discuss the appropriate usage, potential benefits, and risks of cabergoline with a healthcare provider.

This information provides a general overview of the common medical uses of cabergoline, but it is not exhaustive. Always consult with healthcare professionals, refer to product labeling, and follow their instructions for comprehensive and accurate usage information specific to your situation.

Advantage

- 1. Firsky (Wuhan)** continues to make efforts to steadily offer clients high-quality items. We have put in place a reliable internal quality management system and are always working to increase quality, decrease deviation, and eliminate waste.
- 2.** If you have any questions, don't hesitate to ask them; we'll get back to you within 48 hours.
- 3.** After getting the items, if you have any questions, don't hesitate to get in touch with us. We promise to compensate you in full if we were the source of the loss.

FAQ

How do I make a purchase?

We advise that you speak with our customer support personnel before placing an order because the market price of chemical raw materials fluctuates often

- 1.** Please let me know which products you require and how many of each you need.
- 2.** We will provide you with the best pricing right away, including delivery charges.
- 3.** If the price seems reasonable to you, you can select a payment option to complete the transaction.
- 4.** After we confirm your payment, your shipment will be wrapped and dispatched within 24 hours.
- 5.** Two days after the package is sent out, a tracking number and packing photo will be provided.
- 6.** We wish you a wonderful shopping experience and encourage you to get in touch with us if there are any problems.

Which delivery alternatives are available?

All Fushikai orders are shipped from Japan using FEDEX, UPS, DHL, Airmail, Surface Mail, EMS (Japan Post), and Economical Air (SAL). Depending on the various nations, we will select the best choice. Once payment has been received, the approximate delivery time is 5-7 working days.

How are your products verified?

We use our own quality control team to inspect each batch of products. Only at least 98% of pharmaceutical raw materials are used in the synthesis process, rather than cheap sources that are replicated using discarded chemical ingredients. Multiple tests are conducted using cutting-edge equipment to ensure perfect accuracy in determining the potency, purity and quality of ingredients and finished products.

Does a discount apply to large orders?

After your order reaches a particular value, there is a large discount. Several seasonal sales and promotions are available from us.

What forms of payment do you accept?

We will provide payments with Western Union, Bitcoin, e-transfers, bank transfers, MoneyGram, and Alipay in addition to all other forms of cryptocurrency.

Do you deliver to parcel lockers at PO boxes?

YES, we could deliver to parcel lockers at PO boxes!

Can I get a tracking number from you?

We will provide you the tracking number and some images of the items you ordered as soon as the shipment is planned. For the most up-to-date tracking updates, please go to our preferred site.
