

Purity 99% BPC-157 Peptide Powder 5mg Medicine Grade Anti Inflammatory

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 10vials
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

Product Specification

- Product Name: BPC-157
- Specification: 5mg
- Grade: Medicine Grade
- Appearance: Freeze Dried Powder
- Usage: Anti Inflammatory
- Highlight: **BPC-157 Peptide Powder Anti Inflammatory, BPC-157 Peptide Powder, BPC-157 5mg Peptide**

Product Description

Purity 99% BPC-157 Arginate 5mg Medicine Grade Anti Inflammatory

Product description

Product name	BPC-157 Arginate
CAS No.	N/a
Molecular Formula	N/a
Molecular weight	N/a
Grade Standard	Medicine Grade
COA	Available

Product introduction

BPC-157 arginate salt is very stable in human gastric juice and boosts the oral bioavailability from less than 3% to greater than 90%. BPC 157 arginate salt is also more stable in varied temperature environments and can resist the effects of UV light. Studies show that just 5% of BPC 157 arginate is degraded after 5 hours in gastric acid as compared to 98% of the acetate salt with oral administration. The enhanced oral bioavailability of the arginate salt makes it the preferred choice in BPC 157 oral research.

Product function

1. Muscle, Tendon, Ligament and Bone Repair

By inducing angiogenic growth factor healing, BPC-157 has a broad range of healing properties. By increasing the activity of endothelial cell activity that line blood vessels, BPC-157 can aid in the repair of muscles, tendons, ligaments and bone.

2. Cell Growth and Angiogenesis

Research has shown that BPC-157 increases blood vessel growth in all areas of the body. A study of chicken embryos demonstrated that BPC-157 increases vascular growth through the activation of cell surface receptors in the Nitric Oxide pathway, growing new vessels toward the injury. This implies potential treatment of heart disease, overall cellular repair for life extension, and other general healing.

3. Anti-Inflammatory and Antioxidant

A study demonstrated that BPC-157 is a powerful antioxidant by reducing free radical formation via the Nitric Oxide system, attenuating duodenal lesions in rats by significantly decreasing oxidative stress.

4. Wound Healing

In a study with chemical burns, BPC-157 was shown to rapidly accelerate skin healing, inducing granulation tissue formation, reepithelialization, dermal remodeling, and collagen deposition.

Package and Shipping of Anti-Inflammatory Muscle Building Peptides BPC-157 2mg/Vials

Package: 10mg/vial, 10vials/box

Shipping: With 3-5days after your payment

FAQ of Anti-Inflammatory Muscle Building Peptides BPC-157 2mg/Vials

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: Do you accept VISA business credit card?

A: Yes. VISA business credit card is in our payment .

Q3: Is there any discount?

A: Yes, if you want to purchase larger quantity, we can offer better price for you.

Q4: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q5: What kind of transportation do you have?

A: We have many ways of transportations, eg: Air, Sea, Special Lines, TNT, FEDEX, EMS, ect.
