

10mg PT 141 Peptide Vials CAS 32780-32-8 For Increase Female Libido

Our Product Introduction

for more products please visit us on bodybuild-supplement.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 10vials
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

Product Specification

- Product Name: Pt 141
- Cas: 32780-32-8
- Specification: 10mg
- Appearance: Lyophilized Powder
- Purity: 99%
- Usage: Increase Female Libido
- Highlight: **PT 141 Peptide Vials, 10mg Peptide Vials, 32780-32-8**

Product Description

10mg pt 141 Peptide Vials CAS 32780-32-8 For Increase Female Libido

Product name	PT-141
Other name	Bremelanotide
cas no.	32780-32-8
Molecular Formula	C50H68N14O10
Molecular Weight	1025.18
Package	10mg/vial 10vials/box

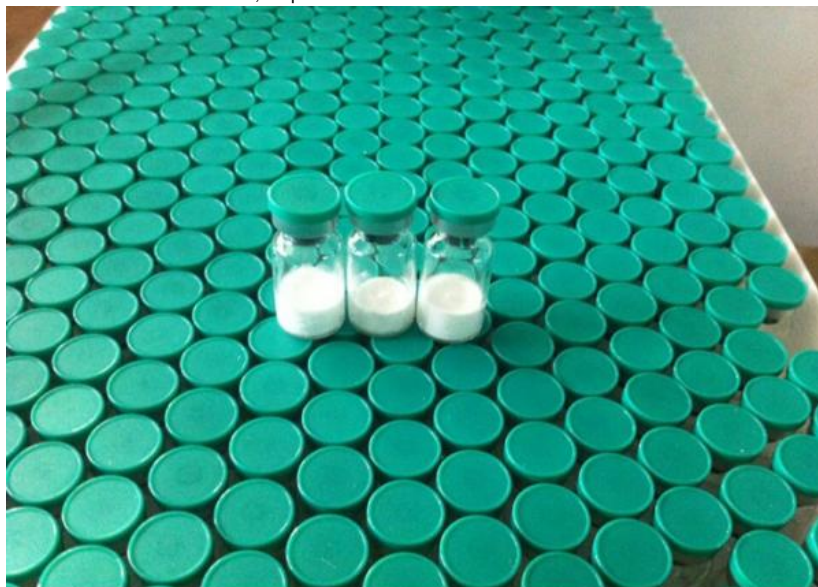

What is PT-141?

Bremelanotide or PT-141 is the generic term for a new research peptide for use in helping improve dysfunction in men as well as helping improve dysfunction in women (arousal disorder).

Bremelanotide, PT-141 does not act on the vascular system like the former compounds but it is known and has been shown to help increase activity in both male and female mammals. Bremelanotide PT-141 allegedly works by activating melanocortin receptors in the brain, therefore helping increase ones stimulation.

FUNCTIONS

1. Bremelanotide PT 141 was developed from the peptide hormone Melanotan II.
2. Effective in treating dysfunction in men.
3. Effective in treating dysfunction in women - arousal disorder
4. Does not act upon the vascular system.
5. Increases desire via the central nervous system.
6. Increases libido and desire, helps enhance intercourse satisfaction

Benefits of PT 141 Buy Online

Results. More women reported moderate or high desire following bremelanotide (Vyleesi) treatment vs. placebo.

Among women who attempted intercourse within 24 hours after treatment, significantly more were satisfied with their level of arousal following bremelanotide, compared with placebo.

Effects may be felt up to 12 hours from the time of administration and have been known to last for up to 3 days, diminishing each day.

Bremelanotide has been shown to have significant results on male test patients, with what is described as "intense" and "frequent" erections lasting between 2-6 hours.

For women, arousal has been experienced in a varied range of minutes to weeks

Bremelanotide was developed from the peptide hormone Melanotan II

Effective in treating dysfunction in men - impotence / erectile dysfunction and premature ejaculation

Effective in treating dysfunction in women - arousal disorder, generalized hypoactive desire disorder (HSDD)

Does not act upon the vascular system

Increases desire via the central nervous system

Package and Shipping of PT 141 Buy Online

Package: 10mg/vial, 10vials/box

Shipping: With 3-5 days after your payment

FAQ of PT 141 Buy Online

Q1: Do you Accept Sample Order?

A: Yes. The smallest order we accept is one box.

Q2: How long does it take to me if I order?

A: About 3-5 days upon receipt of payment.

Q3: Do you accept VISA business credit card?
