

Anti Aging PRO Xylane Cosmetic Raw Materials CAS 439685-79-7 White powder

Our Product Introduction

for more products please visit us on bodybuild-supplement.com

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 10Grams
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

Product Specification

- Product Name: PRO-Xylane
- Cas: 439685-79-7
- Appearance: White Powder
- Purity: 99%
- Usage: Anti-Aging
- Highlight: PRO Xylane Cosmetic Raw Materials,
Cosmetic Raw Materials 439685-79-7

Product Description

Anti-Aging Use Purity 99.9% PRO-Xylane Raw Powder CAS 439685-79-7 for High-End Cosmetics

Description:

Product Name	Pro-xylane
CAS	439685-79-7
MF	C8H16O5
EINECS	456-880-5
Appearance	White powder
MOQ	1 kg, please consult for details
Sample And Customize	Support
Delivery Time	7-15 days
Shipping Method	sea freight,land transport,air transport,express delivery
Package	standard packaging
Payment Method	ALL
Place of Origin	Shandong China
Brand	worldsun
Production Capacity	1000 tons/year
Quality	Top Quality

Puri-Xylane, commonly known as Bosein, is a xylose derivative with anti-aging active substances, which can promote the synthesis of collagen, make the skin stronger and more elastic, improve fine lines on the neck, and prevent senescence. Bosein is a glycoprotein mixture derived from xylose. Since xylose exists in large quantities in beech trees, it has the ability to promote the production of glucosaminoglycans, namely mucopolysaccharides (GAGs). As Boseine extracted from the beech tree, its action is similar to that of xylose.

1. Deep nourishment: Pro-Xylane can penetrate deep into the skin to provide long-lasting moisture and nutrition. It increases the skin's moisturizing capacity and improves the skin's suppleness and elasticity.
2. Skin firming and lifting: Pro-Xylane can stimulate the production of collagen and elastin, which helps to improve the elasticity of the skin, making the skin firmer and younger.
3. Anti-wrinkle and anti-aging: Pro-Xylane reduces the appearance of wrinkles by promoting collagen production. It also fights free radical damage and slows down the aging process of the skin for a more youthful and smoother appearance.
4. Brighten skin tone: Pro-Xylane has the effect of improving skin tone, which can reduce the appearance of dull skin and uneven pigmentation, and make the skin brighter and more even.
5. Pro-Xylane is widely used in various skin care products, such as face cream, essence, eye cream, etc. It is considered a highly potent and effective ingredient with the ability to improve skin texture, reduce wrinkles and promote skin youthfulness.

Packing & shipping

1. Double polyethylene bags inside, and high-quality standard carton drum outside, 1kg for the Foil bag, 25kg for drum or we also can customize the package according to customers demands.
2. Shipping by express, air, Sea, and some special line to most Countries
