

Bcaa Branched Chain Amino Acids Raw Powder CAS 69430-36-0 For Sport Nutrition

Our Product Introduction

Basic Information

- Place of Origin: China
- Minimum Order Quantity: 100Grams
- Price: USD
- Packaging Details: 1kg/Foil Bag
- Delivery Time: 3-7days after received payment
- Payment Terms: T/T, Western Union, PayPal
- Supply Ability: 5000KG Per Year

Product Specification

- Product Name: BCAA
- Cas: 69430-36-0
- Appearance: White Powder
- Purity: 98%
- Usage: Sport Nutrition
- Highlight: Sport Nutrition Bcaa Amino Acid, Bcaa Branched Chain Amino Acids, CAS 69430-36-0

Product Description

Hot Sell Amino Acid Bulk Amino Acid Bcaa Raw Powder For Sport Nutrition

Our Advantages:

- * We are very experienced with this field(more than 10 years);
- * **Package will be shipped within 72 hours;**
- * Good after-sales service;
- * 100% quality guaranteed;
- * We accept sample order for testing;
- * Strong supply ability;
- * Provide custom private label, **1kg/bag, 25kg/drum; Or we can customize by your requests.**
- * Made in China gold members with high credit guarantee.

Product Description

BCAA, or branched-chain amino acids, have gained immense popularity in the fitness industry in recent years. BCAA supplements are a great way for athletes and fitness enthusiasts to increase their muscle growth and performance levels. These supplements contain three essential amino acids - Leucine, Isoleucine, and Valine - that cannot be produced by the body and must be consumed through diet or supplements.

BCAA supplements come in various forms such as powder, capsules, and drinks. They are taken as pre-workout, intra-workout, or post-workout supplements. BCAA supplements help in reducing muscle damage, which results from intense workouts and helps improve muscle recovery time. Additionally, they also reduce muscle fatigue, enabling athletes to train for longer periods without feeling drained.

BCAAs also help increase muscle protein synthesis, which results in increased muscle growth. Leucine, in particular, plays a crucial role in stimulating protein synthesis and initiating muscle-building pathways. This is why BCAA supplements with a higher leucine content are considered more effective.

However, it is important to note that BCAA supplements should not be considered a substitute for a balanced diet. It is still essential to consume a diet rich in adequate protein, carbohydrates, and fats. BCAAs should only be taken as a supplement to an already balanced diet and not as a sole source of essential nutrients.

Product Name	BCAA 2:1:1
Assay	98%
Appearance	White Powder
Main Functions	For exercise
Main Ingredients	L -leucine, L-valine, L-isoleucine
Assay of L-Leucine	45.0~55.0%
Assay of L-Isoleucine	22.5~27.5%
Assay of L-Valine	22.5~27.5%
Lecithin	0.3~1.0%
Heavy metals	≤ 10ppm
Arsenic(As ₂ O ₃)	≤ 1ppm
Lead	≤3ppm
Mercury	≤0.1ppm
Cadmium	≤ 1ppm
Loss on drying	≤ 1.0%
Residue on ignition	≤0.4%
Storage temperature	Room temperature at cool dry place

MOQ	10KG
Package	250G, 450G, 1kg/bag, 25kg/drum, customize

Functions&Application

- 1) BCAA supports extreme muscle growth;
- 2) BCAA builds strength and tremendous power;
- 3) Timed release to support anti-catabolic effects;
- 4) BCAA supportS increased strength and mass;
- 5) leucine critical for mTOR signal for protein synthesis;
- 6) BCAA and leucine may support improved recovery and reduced soreness;
- 7) BCAA promote increased endurance exercise capacity;
- 8) BCAA supplementation provides support against catabolism;
- 9) leucine and muscle protein metabolism.

Packaging & Shipping

Goods weight	Packing	Shipping method	Lead-time
1-50kg	Below 5kg Use Foil bag;5-25kg use two layer PP bag,then into master carton or cardboard drum	International express	1~3 days after your payment
100-200kg	25kg/drum,use two layer PP bag,then into cardboard drum	Air shipping Sea Shipping	3~5 days after your payment
Over 500kg	25kg/drum,use two layer PP bag,then into cardboard drum	Sea shipping	5~10 days after your payment
